Skilled Nursing & Rehabilitation Services

Legacy Health Services
Our Family Caring for Yours

Our goal is to help you return home!

Just a short drive from historic Chardon Square, Maplevue Country Villa is committed to providing a quality therapeutic regimen that is tailored to each person's unique needs. Whether rehabilitation or skilled nursing care is required, our goal is to prepare each person to return home as quickly and safely as possible.

Our staff provides individualized care for a variety of conditions, including but not limited to:

- Post-operative recovery
- Fractures
- Respiratory conditions
- Neurological disorders
- Heart failure
- Strokes
- Pain Management
- Complex wounds

Quality Rehabilitation

Our comprehensive rehabilitation program is focused on the restoration of physical function, maximum independence and improved quality of life. Our physical, occupational and speech therapists carefully monitor the needs and progress of each person.

Our therapy space features specialized equipment for both strength training and enhancement of physical function. Our therapy apartment setup includes a kitchen and bedroom which aides our staff in helping people relearn the skills necessary to function at home. A dedicated speech therapy treatment room is available for individuals recovering from speech, swallowing or cognitive disorders.

These features, along with our experienced staff contribute to improved outcomes and ongoing success.

Qualified, In-House Staff

Each resident's care is overseen by an interdisciplinary team including nurses, social workers, nurse practitioners, physicians and therapists. Interdisciplinary teamwork is essential to each individual's successful recovery.

Skilled nursing services are provided by our experienced staff 24 hours a day and include pain management, wound care, tracheotomy care, intravenous therapy, respiratory therapy, diabetes management, and restorative therapy.

Residents also have access to on-site services including dentistry, audiology, optometry, podiatry, psychology and psychiatry. Our menu features delicious meals planned by a registered dietitian to meet each person's nutritional needs.

Residents can also take advantage of individualized social, educational, and spiritual programs provided by our activities department.
