

WE ARE LEGACY HEALTH SERVICES

You are the most **Powerful Person Ever (PPE)**

PPE Caregiver Pledge:

In our profession, we are answering a calling. We are caregivers. Not just any caregivers- caregivers working with a vulnerable population who are depending on us every day. We are an extension of their families and support systems. They depend on us for things like food, daily care, financial help, a safe and clean environment and emotional support. We must now rise to the occasion and provide protection for our residents against COVID-19. When we leave this facility, our actions can impact our residents. We all understand the importance of proper personal protective equipment use at work, but now YOU can be the PPE!

YOU are the most Powerful Person Ever to your residents. YOU have the power to help protect them and help keep them safe, even when you are not at work. By social distancing, following infection control protocols, wearing masks in public, washing your hands often and being very careful in your private life, YOU are saving the lives of residents.

Thank you!
